

Used Oil Collection Tanks

SIERRA SALES' New Used Oil Collection Tanks feature a unique tank-in-a-tank containment system that provides 120% containment of the tanks contents. The primary tank is black, and the outer containment tank is safety yellow. The tank complies with the latest EPA standards for waste oil storage containers - CFR-40-279.2.

The tank comes complete with:
 2" top draw quick-connect drain coupling
 12" hinged lockable manway for indoor or outdoor security
 Debris strainer basket

An optional Tank Level Indicator is also available.

The tank is virtually maintenance free – it will not rust, chip or dent. It's made of 100% recyclable polyethylene.

The system is available in 120, 150, 275, 360 and 500 gallons sizes to satisfy all of your used oil collection requirements.

Part Number	Gallons	Diameter	Height	Optional Level Gauges
5980000N89102	120	33"	49"	35900105
1000400N89102	150	34"	60"	35900104
1000500N89102	275	47"	63"	35900103
1000600N89102	360	53"	60"	35900103
1000800N89102	500	53"	79"	35900102
